Dear Business Partners

Notification of New Functions of our PV cloud service
(Japanese only)

We are pleased to inform you that the following functions have been added to our "PV Cloud Service".

1. CSV file upload function for annual electricity consumption data (β-version)

Through uploading of the CSV files, simulations based on actual electricity consumption are now possible.

The CSV file to upload can be selected from the following four types of files.

Date Columns (every 30 minutes), Date Row (every 30 minutes)

Date Columns (every 60 minutes), Date Row (every 60 minutes)

URL : https://stg-app.e-solar.co.jp/sc_simulation

2. White Label Function

You can freely change the displayed logo, company information, and company stamp from Europe Solar Innovation's.

a) Change user information and PDF output settings on My Page

URL: <https://stg-app.e-solar.co.jp/mypage/index>

b) Set address settings and payment terms when creating quotations.
