Dear Business Partners

Notification of New Functions of our PV cloud service (Japanese service only)

We are pleased to inform you that the following functions have been added to our "PV Cloud Service".

1. Simulation for Multiple locations of PV generation
2. Simulation for Multiple locations of self-consumption PV system

It is now possible to create simulations for up to 5 locations.

The function to select multiple locations on the map based on the number of installations has been added.

*User login ID and PW are required to access the link.
