Dear Business Partners

Notification of New Functions of our PV cloud service  
(Japanese service only)

We are pleased to inform you that the followings have been updated on our "PV Cloud Service".

1. The following items have been added to the detailed settings and display items when creating a self-consumption simulation.  
Contract electricity (kW), discount rate (%), fuel adjustment cost (kWh), renewable energy levy (kWh), and surplus electricity sales.
2. The power selling simulation function (old version) has been removed from the menu.  
This is also available on our website at the link below.
