Dear Business Partners

Notification of New Functions of our PV cloud service

We are pleased to announce that the following functions have been added in our PV Cloud Service.

1. Display of the calculation results of the minimum number of panels in series in the design simulation.
2. Correction of the amount of electricity generated by Bi-facial panels in the power generation simulation and self-consumption simulation.
3. In the self-consumption simulation, the holiday setting is changed from weekdays to Monday, Tuesday, Wednesday, Thursday, and Friday.
4. Addition and correction of each item (electricity rate, electricity usage, and each calculation formula) in the self-consumption simulation.
5. Release of beta version of multi-language function (English, German, Chinese).
