Dear Business Partners

Notification of New Functions of our PV cloud service

We are pleased to announce that the following functions have been added in our PV Cloud Service.

1. Power generation simulation:

Added simulation function for each season (Spring, Summer, Autumn, and Winter).

2. Power generation simulation and Self-consumption simulation:

PV module tilt angle and PV module temperature coefficient are reflected in the simulations.

*User login ID and PW are required to access the link.
